

2nd CALL FOR PAPERS

15th International Conference on Information Systems and Security

IC-ISS 2026

October 23, 24 & 25, UBT Science and Innovation Park, 2025, Prishtinë, Kosovo

Organizers:

UBT-Faculty of Information Systems

Invitation to IC-ISS 2026:

It is our pleasure to invite you to the 15th International Conference on Information Systems and Security – IC-ISS 2026, part of the 15th UBT International Conference for Business, Technology and Innovation. IC-ISS 2026 is an international peer-reviewed conference focused on the future of Intelligent Information Systems, including Agentic AI, autonomous enterprises, digital trust and strategic Information Systems management.

Scope and Objectives:

IC-ISS 2026 focuses on the next generation of Intelligent Information Systems and the growing role of autonomous technologies in organizations and digital ecosystems. The conference examines how Agentic AI, intelligent enterprise systems and advanced digital infrastructures are transforming decision-making, business operations, cybersecurity and digital governance. It brings together researchers, academics, industry experts, policymakers and practitioners to discuss emerging trends, practical challenges and innovative solutions in Information Systems, Artificial Intelligence, digital trust and enterprise transformation. Particular emphasis is placed on AI-driven ERP systems, intelligent analytics, Decision Support Systems, business process automation and the role of human resources in technological and organizational change.

The scope of the conference will cover but is not limited to:

The Future of Intelligent Information Systems: Agentic AI, Autonomous Enterprises, and Digital Trust

- Agentic AI and Autonomous Information Systems
- Intelligent Information Systems Management in Enterprises
- AI Governance and Responsible Information Systems
- AI-Driven Organizational Transformation
- Enterprise Systems and Intelligent ERP Ecosystems
- AI-Driven Decision Support Systems
- Business Process Automation and Digital Workflows
- Cybersecurity, Digital Trust and Data Protection
- Autonomous Cyber Defense and AI Security
- Zero Trust Architecture and Post-Quantum Security
- Human-Centered AI and Explainable Artificial Intelligence
- Multi-Agent Systems and Intelligent Enterprise Platforms
- Digital Transformation and Smart Business Ecosystems
- Enterprise Analytics and Business Intelligence
- Data Sovereignty and Cross-Border Data Regulations
- Edge AI, Cloud Computing and Intelligent Infrastructure
- Digital Twin Technology and Smart Decision Ecosystems
- Intelligent Supply Chain and Production Information Systems
- Generative AI and Enterprise Knowledge Management
- Sustainable AI Infrastructure and Green Information Systems
- Innovations in E-Governance and Digital Public Services
- Cognitive Information Systems for Smart Cities and Healthcare
- Information Systems Strategy and Digital Leadership
- Human Resources Challenges in ERP and AI Implementation
- Blockchain and Secure Information Management
